I never officially sent anything to ORD, but that doesn't mean they didn't get a copy. Most recent version attached

Guidance for Plant
Biostimulant Lab...

Megan Fleming is the ORD Rep, but she's currently on detail. Stephen Watkins will be covering.

I haven't sent them a copy yet. If you send me the most recent clean version, I'll send it on to them. I'm planning on talking with Stephen tomorrow to discuss where we are with it to get him up to speed.

Has ORD seen the old version in the past? If so, that may help curb significant comments.

Ryne:

Do we know the name of the ORD people? Do they have a copy of the Guidance for review?

ORD can request workgroup participation at any time – they’re considered one of the core ADP offices. Usually it’s done during the tiering process, but they just recently requested participation apparently. Unfortunately, I was never notified and it didn’t show up on the main entry immediately. I had to dig around in the workgroup section to find it.

I’m not overly concerned about this late add-on; I’ve worked with both people on previous rules and they’re pretty reasonable. I don’t think they’d hold things up given it’s a late addition. I think they’ll probably review and offer some minor comments, but I doubt they’ll offer any substantive comments or changes like OECA.
